Course summary

Introduction to Generative Engine Optimization (GEO)

Discover how AI tools like ChatGPT, Gemini, Perplexity and others decide which products or businesses to recommend and how to improve your chances of being chosen. Learn the basics of GEO (Generative Engine Optimization) to appear in AI-generated answers.

View this course at
https://www.open.edu/openlearncreate/course/view.php?id=15505

Learning outcomes

- A clear understanding of what Generative Engine Optimization (GEO) is and how it works.
- Understand why AI chatbots recommend certain businesses, products, or solutions over others in their replies.
- A checklist of easy actions you can apply to your website, brand, business, or content right away to GEO-optimize it for maximum visibility.
- The confidence to adapt your strategy for an AI-driven world.
- A head start on future-proofing your brand visibility without needing technical skills.

Completed study

The learner has completed the following:

- Introduction
- What is GEO (Generative Engine Optimization)
- Where AI Gets Its Information
- What Makes a Source "AI-Trusted"
- The Top Sources AI Checks First
- How GEO Works Differently Than SEO
- Why Some Brands Get Quoted—And Others Get Ignored
- How to Write GEO-Friendly Content

For the complete list of what the learner has studied, see:
